# DAZZLING & FEATURE PACKED

# 1

## ADMIN PANEL

*An Admin Panel lets you update products, services, blogs or articles so that you can keep your content relevant, fresh, informative and accurate. You can also insert events, announcements, discount coupons etc*

---

## *3 Eye Catching Designs*

*We assure you eye catching design elements like colourful buttons, gradient colours, subtle animations and unique layouts. This way your website is always above the average and contributes to your brand.*

## *4 Facebook & Google Viewers*

*Products, Services & write-ups are shareable in Facebook, Instagram etc. So you can pull customers from Social Media to your website and also improve your Google Search presence. You can view Website Visitor Statistics (Optional extra).*

## *5 Free Android Web App*

*People forget, mistype or just feel lazy to type names in a browser. So we convert your website into an App. You don't need to think of new App layouts and contents. People can just download the App from Facebook or your website.*

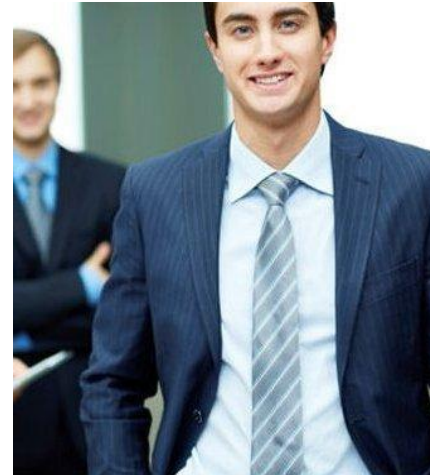

# 2

## ENQUIRY CAPTURE

*POPUP Form, Call Button or Whatsapp Chat attempts to capture interested prospect's contact details, otherwise you lose business to competing websites. Also without these Digital Marketing is pointless.*

---

## BUILT FOR BUSINESS SUCCESS

*So, a Payment Gateway addition converts your site to an e-Commerce site.*

### GOOGLE SEARCH FRIENDLY

*Our designs are SEO (Google Search Result) friendly. We optimize and set up the Google and Facebook Page correctly. So, your website is geared up for Digital Marketing.*

*People find it difficult to visualize and plan many business ideas all at once. So, we do it for you. Our websites are SEO, Digital Marketing and e-Commerce Ready.*

*Hence, we are not talking about just designs but about Business Success and mutual growth.*
